Recommendation list for cars and installation of iZi Flex S FIX

Note: The car manual is the leading guideline and must always be followed. This car list does not limit or guarantee the fit of this child seat.

The child seat is an universal ISOfix child restraint system. It is approved to regulation R44-04 series of amendments for general use in vehicles fitted with ISOfix anchorage systems or 3-point carbelt.

This child seat is suitable for fixing into the seat positions of the vehicles listed below, providing approved ISOfix points are fitted and available and the car manual does not forbid the installation of this type of child seat. Due to differences in cushion shape and angle, this child seat has to be tested in the particular vehicle seat if it really fits in the right way.

Seat positions in other cars may also be suitable to accept this child seat, however we have not yet tested that combination of car and child seat. This carlist refers only to ISOfix positions. Positioning in seating positions without ISOfix is in principle always possible with stowed FIX arms. For updated car list see: www.besafe.com

The child must always be secured with the 3-point carbelt, using this child seat. In cases where the fixation point of the 3 point carbelt is positioned in between the ISOfix points of the car, this child seat can not be used with connected FIX arms.

In some vehicles the space for the head in the rear seat is limited. If you fasten this child seat with the FIX arms in these vehicles, it may not be possible to use the child seat up to a standing height of 1.50 m. This may be the case, for example, if the headrest hits the vehicle's C-pillar. Please observe the heights shown in the type list. When a vehicle is marked with *, the space for the head might be limited to 1,35 m. standing height for specific models of this vehicle. ISOfix anchorages in the passenger seat (position 1) are normally offered as option, so depending on the model this position can be available or not.

Recent car model updates are not mentioned, only when the seating positions are changed, the car model update is mentioned. This child seat fits normally in later model updates of the same car model.

! Notice: For the correct usage of the airbag in combination with the seat; read the vehicle handbook.
